

Eilat-Eilat Renewable Energy conference presents:

EnergyVest

Where investors meet startups

We are holding the global decarbonization Challenge competition, to find the most innovative startups. The challenge is open for startups working on scalable solutions that address issues related to transformative energy and low carbon technologies and that have raised up to \$5 million.

The event will take place on December 15th 2021 at Dan Hotel Eilat.

The challenge:

Decarbonizing the economy - How to reach carbon neutrality by 2050. Startups in the fields of: Energy / Low-carbon technologies / Climate change innovation / Mobility / Energy-Fintech / Energy efficiency.

Criteria

- Financial potential
- SDG Carbon impact
- Disruption
- Energy security
- Business model innovation
- Applicable potential | Matureness

Pitch

10 startups qualifiers will be invited to pitch in the international Eilat Energy conference in front of a live audience from the business community, investors, regulators, and decision makers in the energy world to win the title of “Energy disruptor of the year”.

Awards

First prize: sponsored by Capital Nature

Capital Nature will accommodate and accompany the winning startup to for a 3-day roadshow in the UAE. During the roadshow, Capital Nature will arrange meetings

with potential investors from the UAE and will explore the option of taking part in the investment round.

Second prize: sponsored by the Israel Export Institute

Go-To-Market decision Support Information \$1000 worth package by Israel Export Institute's Market research, information, and intelligence Unit.

An additional \$500 worth package is subjected to IEI membership.

Eligible contestants include:

Israeli registered companies, TTOs, or entrepreneur(s). Companies can have risen up to \$5,000,000 equity funding maximum to date.

Prior to the event, during October, the 10 startups qualifiers will be invited to a pitch preparation session with a representative from Capital Nature.
